Milton Sills in
“Men of Steel”

Not because it took a whole year to make—not because 14 great players were chosen to support Milton Sills—not because the entire company went into one of the nation's greatest mills and there suffered hardship and privation to get this story for you. No—not just because it stands out as the most daring undertaking in cinematic achievement today—BUT—because beneath the heat and turmoil of its tremendous story—while the vapor rises and the white hot steel overflows you realize the most touching drama of love and courage ever written.

Comedy: Chapter 5 “The Collegians.”

JAN. 6-7

“Beau Geste”

Local and General

Born—To Mr. and Mrs. Roy Taylor on Tuesday, December 27th, a daughter.

J. Fred Scott, Barrister, will be in Champion the first Thursday after the New Year, and each Thursday thereafter.

Miss Ella Stephenson of Calgary, spent Christmas with her parents here, returning to Calgary on Tuesday.

Mr. and Mrs. Geo. Harper and Miss Gladys Woodhull, of Granum, spent the holidays in Champion with relatives.

Beau Geste is booked for Champion theatre on Jan. 6-7. The management regret that they have to play this fine picture with adverse weather conditions but they claim and predict a chinook for these dates. We hope they are right.

The matinee in the Champion Theatre on Monday was highly appreciated by the children who were the recipients of the Theatre's bounty both to the extent of a splendid show and also refreshments of every kind. The management were voted the jolliest of jolly good fellows.

A committee of the Board of Directors of Alberta Wheat Pool has presented a report on the suggestion to change the method of handling grain in Western Canada from the bushel basis to that of the pound basis. The committee expresses the opinion that the difficulties in the way of making the suggested change do not seem to be insurmountable.

Fifty buffalo carcasses out of the thousand recently slaughtered by contract at the Wainwright Park have been served by the Northwest Territories branch of the Department of the Interior, Ottawa. The meat of these animals will be sliced and dried for shipment to the Eskimos in the extreme northern part of the Dominion to help replenish their food supply which has been reduced by the diminishing of the herds of Caribou in parts of their hunting grounds.

To date the Alberta Wheat Pool elevators have handled over 15 million bushels of grain from the 1927 crop. This handling is considered very satisfactory by C. M. Hall, the manager. Real local shows now number 157, with three new houses yet to be opened. These are being built at Willingdon, Hairy Hill and Katesland on Clan Donald Branch running from LloyDMINSTER.

Miss Jessie Archibald is the guest of Miss Melba McGillivray, who is home for the holidays from Calgary.

Mrs. R. S. Bond, Miss Ferne Bond and Donald Bond are visitors in Calgary this week.

The Misses Rheta Campbell, Edna Orr, Leola Johnson and Forbes McGillivray are visiting friends in Calgary.

Mr. and Mrs. Oscar Sletto and family left for Moscow, Idaho, now having been received of serious illness in Mrs. Sletto's family.

The cold streak which struck town with the holidays has to a great extent paralyzed movement of any kind in the locality. This has been especially apparent since the latest cold snap struck this part of the country on Wednesday. Traffic with loads has been abandoned and it will be some days before the roads will be in a condition to haul loads of any kind. A real chinook for a day would be an unmixed blessing.

A total of \$27,281.65 has been distributed among farmers in the central and northern part of the province in payment for their 1927 wool clip handled by the Alberta Provincial Sheep Breeders' Association and sold through the Canadian Co-operative Wool Growers' Ltd. Total wool shipments amounted to 111,059 pounds and an average of 24.56 cents per pound was realized. The price while comparing favorable with that of last year, was reduced to some extent by the high percentage of inferior grades in the 1927 clip.

The annual Christmas tree and entertainment held in the church on Friday evening, December 23rd, was the usual very enjoyable event. Both tree and program were fully up to the best traditions of the Sunday School, under the auspices of which the event is held. Everyone concerned is entitled to praise for the efforts which resulted in such an outstanding success.

Card of Thanks

As I am going away for a much needed rest for a while there will be no meals served to the public at the Farmers' restaurant. During my absence the interior of the restaurant will be re-modelled and thoroughly overhauled. Thanking the public for their very good patronage for the past four years, I hope to be able to serve you even better in the future.

Mrs. O. E. Hargraves.

Motorist Engulfed in Flood

When this bridge collapsed beneath him as he was driving across, Fred Galt, of St. Albert, was able to get his car to safety during the recent Quebec floods. Swept downstream by the mad waves Mr. Galt struggled to shore after a fight that lasted a mile and a half. His Chevrolet, after being buried under fifteen feet of water for two hours, was still running when he got it, practically undamaged, when the floods receded. Only a wet cell prevented the motorist from driving off, as after the car was hauled out a touch of the starter turned over the motor.

GENERAL NEWS

The growing importance of the fur farming industry in Alberta is indicated by the importation during the past week of a shipment of 27 pairs of silver foxes from ranches in the Maritime Provinces. These animals which are valued at \$25,000 were consigned to the National Silver Fox Club at Morinville, a newly organized firm which plans to engage in fox breeding on a large scale.

Some 800 acres of land in the district surrounding Edmonton have been leased for the coming season by the Broder Canning Co. of New Westminster, B.C. This firm will open a branch plant in Edmonton in the spring of 1928 and expects to grow a large acreage of peas, beans, spinach and other vegetables for canning purposes. They also expect to bring in shipments of tomatoes from the interior of British Columbia to be canned in the Edmonton factory.

Quebec has been visited by two disastrous fires, the first in a girl's school being accompanied by the loss of over

thirty lives, while the second in a boy's school destroyed property only, all the inmates escaping. As both were Catholic schools it is feared the fires were of incendiary origin and that a maniac is at large and is the cause.

CHAPTER XV.—Continued

Helmi was awakened next morning by the first beam of the sun. It was a bright, cheery corner of the factory cotton blinc, and played over her pillow with a tremulous motion. It was a jolly little sunbeam that seemed to have a story to tell. If there was anyone in the world that could have been so full of the joy of completeness to listen to any other story, she sprang out of bed and met the new day with a song, a strange song, that came bubbling out of her far-off childhood. Helmi had been so young when the old song had been her darling, clinging to the big littered boughs, where a solemn black sows, standing gorm and cold in its frosty spread, alegria, her she had had, her porridge already spouted. Helmi was what Mrs. McMann called forehanded—she was always on time.

Mrs. McMann usually slept until breakfast was over. She was glad of a change in her peace, and she knew that if the sunbeam had been a girl, she would have been as scared of it as she was of her sister's marriage and her plaid acceptance of her swarming family. But now Helmi had a deeper understanding, as she sang the old chant, the "Kalevala" of her own world.

"Now the time has come for parting."

From my father's golden fire-side,
From my brother's welcome heartstones,
From my mother's happy dwelling."

Well and suddenly and dolorously, but yet with the heart-throbs of another generation, the "Kalevala" had its place in this new world of action and realities.

But Helmi sang on as she goes, dancing in a gay, gay, tuneful voice, to the old children whom she had heard sing it years ago, laughing at it, yet bound by its strange spell. She was glad she remembered it; it would make Jack Doran smile. But the big regular laugh she loved so well could not again, she was a queer sick Helmi.

"Do not harm the birds of heaven,
Do not injure her thou least;
Counsel with the birds of heaven,
The young who give instruc-

tion."

Helmi rolled up the cotton blind and went out on the veranda. The warm sun was even filling the sander with a sultry glow, even brightening the weather-beaten little houses. Streamers of rose and orange were thrown into the upper heavens, indicating a windy day; curling smoke from the chimneys was yellow, faithfully telling who was and who was not airt. To Jack Doran's house on the hill, pink clouds in the morning light, Helmi's eyes turned lovingly, as though she had been a child of smoke, drifted suddenly up into the wailing air. Some day that little house would be hers, and she would have her own little pots and pans, staining just like...

Helmi's thoughts sang the old melody, but not musing, but the words, which never mattered much anyway, were the dismal lines of the "Kalevala." However, sang as they were by her in狂, no trace of the gloom was left.

"Cut a rod upon the moanin,
Cut a willow in the vally;

Hid it underneath thy matto,

Tiel the stranger may not see

"P."

Helmi laughed at the comical instructions given to her by the Indians. In the garden she had to sit in a pile. It was all very humorous now, though she remembered how angry it made her when she heard it sing in Finland. She had once been severely whipped by her father for saying that she was going to dance to the tune her old man would sing. But the whipping had only confirmed her determination. She hoped her father would be sick and break his leg with it by the time she got home.

Helmi dressed as quickly as she could. Her little rose, gilded now by the water, was a paradise to her, because she had dreamed her glorified dreams. Helmi's radiance of spirit covered every de-

formity, even as the sunbeam wended its way down the faded pattern on the tiny little quilt, faintly called a comforter, which lay on the bottom of the bed. Helmi's bed was a narrow white enameled one, with no much of the enamel gone that its owner had been so fond of. The bed had a high headboard. The four was uneven and splintery; a cracked mat stood on a box covered with red and yellow checked cloth; but today nothing mattered. Helmi had been so long in the old room. She had been climbing stairs to the big littered boughs, where a solemn black sows, standing gorm and cold in its frosty spread, alegria, her she had had, her porridge already spouted. Helmi was what Mrs. McMann called forehanded—she was always on time.

Mrs. McMann had thought out a real plan, deep laid, during extreme.

"Why bother?" asked Jack, helping him to a piece of toast from the pyramid which Helmi had just brought him.

"I suppose a person gets no thanks, but I was never one to think that, for instance, that the man of my business but I can't help bothing' about other people."

SEED GRAIN RATE ON NO. 1 WHEAT NOW REQUESTED

Winnipeg.—An effort to secure a seed grain rate on No. 1 wheat equal to those obtaining at present on winter wheat was made here when a group of seed specialists met representatives of the Canadian Grain Association.

It was pointed out that it is rather late to the cleaning centres, and as Moose Jaw, Regina, Saskatoon, Brandon and Winnipeg, could be secured for No. 1 wheat, farmers would use this quality and the price of wheat would be protected. A recent survey in 15 western districts showed that 75 per cent. of the wheat sown was No. 3 seed which contains about 20 bushel per bushel to the pound.

There is an urgent demand, the experts said, that Canadian seed should be improved.

Decision of the freight association is expected shortly.

J. E. Elton, Manitoba, division secy., inspected a portion of the Wm. Pool; and M. P. Tully, the Saskatchewan department of agriculture, represented grain organizations at the meeting.

PEACE NOT AIDED BY WEAKENING BRITISH EMPIRE

London.—Widespread refusal of Britain to bear its weight would come if the League of Nations and the Locarno Treaties, said Premier Stanley Baldwin in reply to a recent Laborites' "Peace letter" signed by 128,770 persons who declared they would refuse to support any government in waging war.

The letter was presented to the premier, December 18, by Arthur Rossiter, Labor member of the House of Commons.

"We are not asking for peace," said Premier Stanley Baldwin in replying to the peace letter.

"God forbid that it again should be disturbed," the premier continued, "but we have yet to learn that the use of force can be served by rendering Great Britain impotent." No one can strengthen the League of Nations by weakening the British Empire. England totally disarmed and an easy prey to hostile forces—can we think of nothing more likely to excite contempt and suspicion?"

We should sink to the level of a fifth class power; our colonies would be stripped from us and our commerce would be destroyed," said the premier.

Premier Baldwin said:

The effectiveness of the Locarno treaties depends very largely on the knowledge of all parties concerned that in the event of an unprovoked attack, the military weight of Great Britain would be brought to bear on behalf of the League against the aggressor.

To deprive us of that weight, the treaties would be rendered impotent.

The complaint that has been heard in the League of Nations assembly is not that the armaments of Great Britain are excessive or a menace to the world, but that they are now playing a role unbecoming of the League for the enforcement of its decisions."

Local and General

It was the intention to omit this issue altogether when the weather turned so cold and left the roads almost impassable, but some essential advertising for the date necessitated its production.

Mrs. E. Latif and family are spending the holidays at Stavely.

Mr. and Mrs. B. Hummell were guests of the latter's parents at Stavely.

T. R. Jopling is making satisfactory progress in the hospital at Calgary.

Harold Stephenson is in Calgary attending the boys' parliament, of which he is member for this district.

Misses Florence and May Ulrich are spending the holidays at their home here.

An event of unusual interest to residents in this district took place on December 17th at the residence of Mr. and Mrs. J. A. Long, 511-10th Street West, Calgary, when their son John was united in marriage to Miss Rheta Beaubier, daughter of Mr. and Mrs. John Beaubier, of Champion. The nuptial knot was tied by Rev. Geo. Dickson of Knox church, Calgary. Both bride and groom are members of families long resident in this vicinity and are very widely known. Good wishes from everyone will be extended to the newly weds, who have taken up their residence on Mr. Long's farm, two miles east of Champion.

Have A Westinghouse In Your Home for Christmas

In the home that owns a Westinghouse radio, Christmas cheer does not die with the Yule log embers. Long after other gifts are forgotten a Westinghouse brings countless hours of enjoyment.

Never before have you been able to have such value in radio sets at so moderate a price. The new 1928 Westinghouse models and Radiolas include a set for all methods and requirements of operation. A choice of storage battery, dry battery and socket power operation affords perfect radio enjoyment under all conditions at a price you can afford.

The performance of these new sets is flawless. Distant stations are brought in loud, clear and without distortion. Their tone is as mellow and sweet as that of an old violin. One dial station selector makes them as simple to operate as turning on an electric light. All console models have the new Oval Cone loud speaker built in. Cabinets are of walnut in pleasing design and finished in Duco.

Decide now to have one of these new models in your home this Christmas. We'll gladly give a demonstration in your home without cost or obligation. Phone us to-day.
